

Prixton Lumière Black

P R I X T O N L U M I È R E B L A C K

With the Lumière Black, manufacturer Prixton offers a micro portable LCD LED projector with HDTV resolution of 1280 x 720 and a contrast ratio of 500:1. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours per day. An image width of up to 170 cm is possible. However, in bright room conditions, the image should be set to a smaller size. We recommend a maximum of 113 cm. Since the projector supports AirPlay and Miracast screen mirroring, you can stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. The model is also Full HD 1080p compatible.
