

projectiondesign cineo12

Brief Introduction

Beta 2.5

The standard portable cineo12 BrilliantColor DLP has 1800 Ansi lumens, a contrast of 3000:1 and an HDTV 1920 x 1080 resolution. The integrated lens shift gives freedom when positioning the projector. 1800 Ansi lumens ensure that a picture width of 431 cm is also possible. However, if room light is available, the picture should be a maximum of 287 cm wide. Even 1080P video signals are no problem for the projector. With only 28 decibels of operating noise, the model is already very quiet compared to others. The model was built by projectiondesign in 2009 and is no longer current.
