

Pyle PRJD903

P Y L E P R J D 9 0 3

Brief Introduction

Beta 2.5

The Game-Portabel PRJD903 LED LCD has 120 Ansi-Lumen, a contrast of 2000:1 and a WVGA 854 x 480 resolution. The lifespan of the LEDs is 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. The integrated media player can play files directly. As Pyle specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The projector can illuminate a picture width of up to 111 cm well thanks to the 120 Ansi lumens. In room lighting, however, the picture width should ideally be less than 74 cm. This model is no longer available from Pyle.
