

Pyle PRJLE67

PYLE PRJLE67

Brief Introduction

Beta 2.5

The Pyle PRJLE67 LED LCD projector has 210 Ansi lumens, a contrast of 10000:1 and a WXGA 1280 x 800 resolution. Due to the LEDs, the projector is specified with 30000 hours of light life, which converts to over 20.5 years at 4 hours per day. The integrated media player allows files to be played directly. As Pyle specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. A picture width of up to 147 cm is possible. In room light, however, the image should be smaller. We recommend max. 98 cm. Furthermore, the projector can play 1080P without any problems. The projector is no longer sold by the manufacturer.
