

Pyle UPRJG95

PYLE UPRJG95

The standard portable Pyle UPRJG95 LED LCD projector has 1200 Ansi-Lumen, a contrast of 1500:1 and a WVGA 800 x 480 resolution. The service life of the LEDs is 50,000 hours, which is over 34.2 years with a daily viewing time of 4 hours. The integrated media player allows files to be played directly. 352 cm picture width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 235 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The model was built by Pyle in 2017 and is no longer current.
