

Pyle AZPRJG82

PYLE AZPRJG82

A brief introduction to the Pyle AZPRJG82. The micro-portable LCD LED projector has a WVGA 800 x 480 resolution and a contrast of 1000:1. The manufacturer specifies an LED service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. As Pyle specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The projector can illuminate a screen width of up to 300 cm well with its 870 Ansi lumens. In room lighting, however, the picture width should ideally be less than 200 cm. The projector can also display 1080P without any problems. This model is no longer available from Pyle.
