

REAGLE R-MOVIELUM-P31

EAN/UPC:B0GR64RQKK

Brief Introduction

Beta 2.5

The REAGLE R-MOVIELUM-P31 LED LCD projector has 420 ANSI lumens and an HDTV resolution of 1920 x 1080. The manufacturer, REAGLE, specifies a lifespan of 30,000 hours, which would equate to over 20.5 years if used for 4 hours a day. As the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. An image width of up to 208 cm is possible, as the projector has 420 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 139 cm wide. As the projector recognises AirPlay and Miracast screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. Furthermore, the projector can play 1080p and 4K (compressed) content without any issues.
