

Runco VX 60d

RUNCO VX 60D

The Runco VX 60d DLP projector has 4000 Ansi lumens, a contrast of 1500-1800:1 and an SXGA+ 1400 x 1050 resolution. The integrated lens shift gives freedom when positioning the projector. An image width of up to 551 cm is possible as the projector has 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, max. 367 cm is recommended. If the image width is not sufficient, the projector offers integrated edge blending software, with which several projectors can project a large image together. This model is no longer offered by Runco, but is still a very popular projector.
