Sharp XV 370P/H

Beta 2.5

Brief Introduction	The Sharp XV 370P/H LCD projector has 70 Ansi lumens, a very low contrast and resolution. The projector can illuminate a picture width of up to 73 cm well thanks to the 70 Ansi lumens. In room light, however, the picture width should ideally be less than 49 cm. It is no longer offered by the manufacturer Sharp. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
