

SkyEcho FreeONE Pro

SKYECHO FREEONE PRO

Brief Introduction

Beta 2.5

With the FreeONE Pro, manufacturer SkyEcho offers an LCD LED projector with HDTV 1280 x 720 resolution. The lifespan of the LEDs is 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. 350 Ansi lumens ensure that a picture width of 190 cm is also possible. However, if room light is available, the picture should be max. 127 cm wide. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. As the projector recognizes Airplay and Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.

Display Type

- 1 x LCD Panel
- HDTV 16/9 Liquid Crystal Display
