

Sony VPL 351 QM

SONY VPL 351 QM

Brief Introduction

Beta 2.5

The Sony VPL 351 QM Station LCD projector has 160 Ansi lumens and a WVGA 720 x 480 resolution. The projector will be able to illuminate a 129 cm picture width well. However, if room light is available, the picture width should ideally not exceed 86 cm. The projector was launched in 1994 and is no longer sold by the manufacturer. Unfortunately, we can no longer offer replacement lamps for this model, neither originals nor replicas.
