

Sony VPL FHZ66 B/W

SONY VPL FHZ66 B/W

The Sony VPL FHZ66 B/W laser LCD projector has 6100 Ansi lumens, a contrast of 500000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer specifies a laser service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. With the lens shift function, the projector can be positioned very freely. 6100 Ansi lumens ensure that a picture width of 794 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 529 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. Even 1080P video signals are no problem for the projector, and it even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection. At 28 decibels, the projector is very quiet compared to other projectors. The model built in 2018 is no longer offered by Sony.
