

Sony VPL FX50

SONY VPL FX50

The VPL FX50 LCD projector from Sony has 3500 Ansi lumens and an XGA 1024 x 768 resolution. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. Includes a lens shift and keystone correction function, which provides freedom during installation. An image width of up to 515 cm is possible as the projector has 3500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 343 cm. 1080P playback is also no problem for the projector. On the market since 2001, the model is no longer offered by the manufacturer Sony.

Brief Introduction

Beta 2.5

Display Type

3 x 1,3" LCD TFT Panel mit MLA
XGA 4/3 Liquid Crystal Display with Micro Lense Array
