SVIC S710D

Brief Introduction Beta 2.5	A brief introduction to the SVIC S710D. The standard portable LCD projector has a WVGA 800 x 480 resolution and a contrast of 800:1. The lamp life is up to 6000 hours, which is over 8.2 years if enjoyed for two hours a day. As SVIC specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 132 Ansi lumens ensure that a picture width of 117 cm is also possible. However, if room light is available, the picture should be a maximum of 78 cm wide. At just 28 decibels, the device is one of the quieter projectors. The projector is no longer sold by the manufacturer.
