

TCL A1s

TCL A1s

Brief introduction to the TCL A1s. The standard portable LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 2000:1. The manufacturer specifies an LED service life of 30,000 hours, which would be equivalent to over 20.5 years at 4 hours per day. Since TCL specifies the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. An image width of up to 278 cm is possible, as the projector has 750 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 185 cm wide. Google TV turns the projector into a smart entertainment center with countless functions. Since the projector recognizes screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Playing 1080P and 4K (compressed) is also no problem for the projector. At just 30 decibels, the device is one of the quieter projectors available.

Brief Introduction

Beta 2.5

Display Type

1 x 4,45" LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

750 / 600 Iso Lumen
