

TCL C1

TCL C1

With the C1, manufacturer TCL offers a standard portable LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 2000:1. Thanks to its LEDs, the projector has a light life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. As TCL specifies the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. The brightness of 288 ANSI lumens allows for an image width of 172 cm. In room lighting, the image should be a maximum of 115 cm wide. Thanks to Google TV, the projector can be conveniently controlled by voice command. The projector has Chromecast and screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P and 4K (compressed) compatible. Compared to others, the projector is very quiet with an operating noise of 30 decibels.
