

TOPVISION Wireless Wifi Projektor

TOPVISION WIRELESS WIFI PRO

Brief Introduction

Beta 2.5

Brief introduction of the TOPVISION Wireless Wifi projector. The LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast of 12000:1. The lifespan of the LEDs is 100000 hours, which is equivalent to over 68.5 years at 4 hours of use. Includes an integrated media player that can be used to play files directly. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. 225 cm image width, the projector can illuminate well. However, if room light is available, the image width should ideally not exceed 150 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P and 4K (compressed) compatible.

Display Type	1 x LCD TFT Panel HDTV 16/9 Liquid Crystal Display
Ansi-Lumen	490
Contrast	12000:1 full on/off
