

Toumei C900

TOUMEI C900

With the C900, manufacturer Toumei offers a portable DLP projector with WSVGA 960 x 540 resolution and a contrast ratio of 5000:1. The projector is equipped with a built-in media player, so playing files directly is no problem. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. 300 ANSI lumen ensure that an image width of up to 176 cm is possible. However, if there is ambient light in the room, the image should be no wider than 117 cm. Thanks to the built-in 8000mAh Li-ion battery, no external power source is required, allowing the projector to be set up quickly and flexibly. Since the projector supports AirPlay and Miracast screen mirroring, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Additionally, the Bluetooth capability is a useful feature for the projector, particularly for wireless audio transmission. Playing 1080p content is also no problem for the projector.
