

Toumei Q3

TOUMEI Q3

The standard portable Toumei Q3 LED LCD projector has 550 ANSI lumens, a contrast ratio of 2000: 1 and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the projector has a specified light source lifetime of 30,000 hours, which would equate to over 20.5 years based on 4 hours? viewing per day. Thanks to the ambient light sensor (Ambient Light Sensor), the projector can automatically optimise the projected image. Horizontal and vertical keystone correction provides flexibility when setting up the projector. The brightness of 550 ANSI lumens allows for an image width of 238 cm. In well-lit rooms, the image should be no more than 159 cm wide. The model recognises AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Furthermore, thanks to its Bluetooth functionality, the projector can be flexibly paired with other speakers. Playing 1080p and 4K (compressed) is no problem for the projector.
