

Unicview HY450

UNICVIEW HY450

Manufacturer Unicview offers the HY450, an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 26000:1. It is an LED projector with a light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. Thanks to its short throw ratio of only 0.6:1, the projector does not take up much space in the room. For a 2m wide image, the projector only needs to be 120 cm away from the screen. The model recognizes DLNA, Airplay, and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Even 1080P and 4K (compressed) video signals are no problem for the projector.
