With the Leisure 520W, manufacturer Vankyo offers a game-portable LCD LED projector with HDTV 1280 x 720 resolution and a contrast of 260:1. The manufacturer specifies an LED service life of 30,000 hours, which converts to over 20.5 years at 4 hours per day. As Vankyo specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 122 cm is possible. In room light, however, the image should be smaller. We recommend max. 81 cm. Furthermore, the projector can play 1080P without any problems. This model is no longer offered by Vankyo.
