

VAVA Outlet

The VAVA Outlet LED LCD projector has 450 ANSI lumens, a contrast ratio of 10,000:1 and an HDTV resolution of 1920 x 1080. The manufacturer, VAVA, specifies a lifespan of 30,000 hours, which would equate to over 20.5 years based on 4 hours? use per day. As the projector features horizontal and vertical keystone correction, it can be positioned with plenty of space around it in the room. Thanks to its brightness of 450 ANSI lumens, an image width of 216 cm is possible. In room lighting conditions, the image should be no more than 144 cm wide. The model recognises AirPlay and Miracast screen mirroring signals, so it is possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another bonus worth mentioning is the Bluetooth function allows the projector to be connected to external wireless speakers. Furthermore, the projector can display 1080p content without any issues.
