

Velocity micro Shine

VELOCITY MICRO SHINE

The Shine DLP has 300 Ansi lumens, a contrast of 2000:1 and a WXGA 1280 x 768 resolution. The integrated media player can play files directly. 300 Ansi lumens ensure that a picture width of 176 cm is also possible. However, if room light is available, the picture should be a maximum of 117 cm wide. The model built in 2012 is no longer offered by Velocity micro.
