

Vivibright D10000

VIVIBRIGHT D10000

The Vivibright D10000 standard portable LED LCD projector has 1800 Ansi lumens, a contrast of 10000:1 and an HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 80,000 hours, which is over 54.8 years if enjoyed for four hours a day. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. 431 cm image width, the projector will illuminate well. However, if room light is available, the picture width should ideally not exceed 287 cm. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Playback of 1080P and 4K (compressed) is also no problem for the projector.
