

Vivibright W300

VIVIBRIGHT W300

Brief Introduction

Beta 2.5

The standard portable W300 3D LED LCD projector from Vivibright has 168 Ansi lumens, a contrast of 600:1 and an XGA 1024 x 768 resolution. Due to the LEDs, the projector is specified with 20000 hours of light life, which is over 13.7 years if enjoyed for four hours a day. As Vivibright specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 113 cm is possible. In room light, however, the image should be smaller. We recommend max. 75 cm. Video signals 1080P are also no problem for the projector. This model is no longer offered by Vivibright.

Display Type

1 x LCD TFT Panel
XGA 4/3 Liquid Crystal Display

Ansi-Lumen

Projector 455 / 2800 Lumen

Screen 152 Lux (200 cm Screen width)
