

Vivitek DU467AZAA

VIVITEK DU467AZAA

The Vivitek DU467AZAA 3D Laser BrilliantColor DLP projector has 5300 Ansi-Lumen, a contrast of 3000000:1 and a WUXGA 1920 x 1200 resolution. The service life is 20000 hours due to the laser, which would be the equivalent of over 13.7 years at 4 hours per day. The projector also offers a lens shift function that makes image adjustment childs play. An image width of up to 740 cm is possible as the projector has 5300 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 493 cm. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. Furthermore, the projector can play 1080P and 3D without any problems and can even project Blu-rays onto the ceiling thanks to 360° projection. The projector was launched in 2020 and is no longer sold by the manufacturer.
