

# Vivitek DW855

VIVITEK DW855

## Brief Introduction

Beta 2.5

The standard portable Vivitek DW855 3D DLP projector has 5500 Ansi lumens, a contrast of 15000:1 and a WXGA 1280 x 800 resolution. The horizontal and vertical keystone correction provides leeway when setting up. 753 cm image width, the projector will be able to illuminate well. The projector can manage rooms with residual light with a smaller image width, we would recommend a maximum of 502 cm here. Playing 1080P is also no problem for the projector. This model is no longer offered by Vivitek.
