

XElectron iProjector 2 Plus

XELECTRON IPROJECTOR 2 PLUS

The XElectron iProjector 2 Plus is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 15000:1. The LEDs give the projector a light lifespan of up to 30000 hours, which is over 20.5 years of enjoyment at four hours a day. A built-in horizontal and vertical keystone correction function gives you more freedom when setting up the projector. The projector can easily illuminate a screen up to 337 cm wide with its 1100 ANSI lumens. However, in room light, the screen width should ideally be under 225 cm. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Furthermore, it is Full HD 1080P and 4K (compressed) compatible.
