

XENPONAD H7

EAN/UPC:B0GCZMY4Q2

Brief Introduction

Beta 2.5

The XENPONAD H7 LED LCD projector has 1,000 ANSI lumens, a contrast ratio of 1,000:1 and an HDTV resolution of 1,920 x 1,080. It is an LED projector with a lamp life of 30,000 hours, which would equate to over 20.5 years at 4 hours? use per day. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. 1,000 ANSI lumens ensure that an image width of up to 321 cm is possible. However, if there is ambient light in the room, the image should be no more than 214 cm wide. Google TV transforms the projector into a smart entertainment centre with countless functions. As the projector recognises AirPlay and Miracast screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. The projector also handles 1080p and 4K (compressed) video signals with ease.
