A brief introduction to the MoGo 3 Pro: the XGIMI micro-portable LED DLP projector offers 504 ANSI lumens and HDTV 1920 x 1080 resolution. The manufacturer states that the LED has a lifespan of 25,000 hours, which is over 17.1 years if used for four hours a day. The projector is equipped with an integrated media player that can play files directly, so this will not be a problem. Since XGIMI specifies the brightness of the projector in lumens, we have calculated an approx. Ansi-Lumen value in this case. 504 Ansi-Lumen ensure that an image width of 228 cm is also possible. However, if room lighting is available, the image should not be wider than 152 cm. Thanks to Google TV, the projector can be conveniently controlled by voice command. The projector has Chromecast, DLNA and Screen Mirroring support, which allows for direct playback of high-resolution videos and surround sound from smartphones, tablets and PCs running Android, Windows or iOS via Wi-Fi. Another extra to be mentioned is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, it is Full HD 1080P compatible.

1 x 0,23" DMD DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Projector 504 / 450 ISO Lumen
Screen 224 Lux (bei 200 cm Screen)
