XGIMI MOGO PRO

A brief introduction to the MoGo Pro: The XGIMI game portable LED DLP projector offers 300 Ansi lumens and an HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30000 hours, which is over 20.5 years if enjoyed for four hours a day. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. 300 Ansi lumens ensure that a picture width of 176 cm is also possible. However, if room light is available, the picture should be a maximum of 117 cm wide. Thanks to the built-in 10400 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Even 1080P video signals are no problem for the projector. The projector was launched in 2017 and is no longer sold by the manufacturer, but is still a very popular projector.
