

XNANO X3 Pro

XNANO X3 PRO

The X3 Pro LED LCD projector from XNANO has 150 ANSI lumens and an HDTV resolution of 1280 x 720. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years based on 4 hours of daily use. Since the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. An image width of up to 176 cm is possible. However, in room lighting, the image should be set smaller. We recommend a maximum of 117 cm. Since the projector supports AirPlay, and Miracast screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Furthermore, the projector can play 1080p and 4K (compressed) content without any issues.
