

Yaber L1 Pro

YABER L1 PRO

Brief Introduction

Beta 2.5

A brief introduction to the L1 Pro: The Yaber portable gaming LED LCD projector offers 400 ANSI lumens and an HDTV resolution of 1920 x 1080. Thanks to its LEDs, the projector has a light source lifespan of up to 30,000 hours ? that's over 20.5 years if used for four hours a day. As the projector features horizontal and vertical keystone correction, it can be set up with plenty of space around it in the room. An image width of up to 203 cm is possible, as the projector has 400 ANSI -lumens. However, if there is ambient light in the room, the image should be no more than 135 cm wide. The projector supports AirPlay and Miracast screen mirroring , which allows high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. Another notable feature is that the projector's Bluetooth function allows it to be connected to external wireless speakers. The projector also has no problem playing 1080p and 4K (compressed) content.
